ABOUT ME

Senior Frontend Developer with 8+ years of experience in designing and developing scalable, high-performance web applications, specializing in building responsive and user-centric interfaces using modern technologies such as HTML5, CSS3, React, Angular, and Tailwind CSS. Skilled in performance optimization, clean code practices, and delivering pixel-perfect UI aligned with business and user needs, with hands-on experience leveraging AI-powered tools to accelerate development, enhance design quality, and improve overall productivity.

EXPERIENCE

Techuz InfoWeb Private Limited

Sr. Frontend Developer | 2019 – Present

- Developed responsive, pixel-perfect user interfaces by converting Figma/UI designs into high-quality, mobile-first web applications
- Managed and contributed to both dedicated and multiple concurrent projects, ensuring timely delivery and quality standards
- Communicated directly with clients to gather requirements, provide project updates, and deliver technical solutions aligned with business goals
- Built modern UI components using Tailwind CSS, ensuring scalability and consistency across projects
- Guided and mentored junior developers, conducted code reviews, and supported team growth

Tecstub Inc.

Sr. Frontend Developer | 2018 – 2019

- Participated in Scrum ceremonies including daily stand-ups, sprint planning, and sprint reviews to ensure smooth project execution. Managed assigned tasks within Agile workflows and ensured timely delivery of milestones.
- Created and maintained test cases for frontend features to ensure UI functionality, consistency, and quality assurance

Techseria Pvt Ltd

Jr. Web Designer | 2017 – 2018

- Collaborated with cross-functional teams to build and maintain responsive web applications. Enhanced performance, fixed UI bugs, and ensured seamless functionality and consistency across browsers and devices.
- Converted and sliced mobile app designs into responsive frontend components for web and mobile interfaces

Brelicon Technology

Jr. Web Designer | 2015 – 2017

- Worked on UI/UX design and web development using Photoshop and modern design principles. Contributed to WordPress website development, customization, and maintenance. Assisted in project management tasks and handled content translation/localization for different languages. Ensured design consistency and supported timely project delivery.

SKILLS

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, SASS, JavaScript (ES6+)

Frameworks/Libraries: React.js, Angular

Animations & Interactions: GSAP, Lottie, UI Animations, Interactive Experiences

Tools: Git, Figma, Photoshop

AI Tools: ChatGPT, Claude Code, GitHub Copilot, Figma AI, Antigravity

Other: Responsive Design, Mobile-First Design, Cross-Browser Compatibility, Performance Optimization, UI/UX Implementation

PROJECTS

CollegEase (Education Management Platform)

React, TypeScript, HTML5, CSS3

- Built responsive and dynamic user interfaces using React, HTML5, CSS3, and integrated REST APIs.
- Ensured optimal usability, accessibility, and cross-device performance across modern browsers.
- Implemented engaging UI animations using Lottie to enhance user experience and align with design specifications.

Divorcex ai (AI Platform)

React, Tailwind, CSS, UI/UX

- Developed responsive, accessible UI components.
- Designed intuitive user flows for sensitive AI-driven interactions.

Tutorac Academy / Tutorac Learning Platform (EdTech SaaS)

Angular, HTML5, CSS3, WebSockets

- Lead frontend architecture for a scalable EdTech platform with courses, live classes, and dashboards.
- Built responsive, high-performance UIs using Angular, TypeScript, HTML5, CSS3.
- Implemented real-time features and optimized UI performance at scale

Smart Stocks (CMS)

React, Tailwind, Lovable

- Designed the interface in Figma and leveraged Lovable and Claude to refine the UI, improving aesthetics and overall elegance
-

EDUCATION

Bachelor of Information Technology

Shantilal Shah Engineering College, 2015 - GPA: 7.80(CGPA), 8.40(SPI)
